

Shamiso Vushe

SOFTWARE DEVELOPER

Namibia, Windhoek | 081 402 4213 | shamirav2005@gmail.com | Portfolio Website: shamisovushe.netlify.app

Profile Summary

Full-stack developer passionate about building real-world applications, with experience in frontend, secure API development, and database management, and a growing passion for AI and automation.

Work Experience

MTC Maris | Software development Intern

September to December 2025

- Worked in an agile scrum environment where I attended and contributed to daily standups
- Designed and built a content management system for an existing website to improve content updates.
- Implemented geolocation features including map display and Street View, and built a geolocation agent to identify the nearest outlets using the Google Maps API
- Integrated web analytics and dashboards using Google Analytics, Looker Studio, and Google Data APIs to support data-driven decisions
- Assisted in compiling documentation for various software features
- Conducted software testing to identify bugs and security vulnerabilities
